

Perfecting the art and science of currency counting machines.

The 75 Series offers the technology, performance, and productivity you expect from Magner - the global leader in table-top currency counters. With a wide range of features and options, the 75 Series is also designed for rugged reliability, even in the most demanding applications. In addition to accurate high speed processing and simplicity of operation, the 75 Series also provides optional currency value extension as well as advanced currency authentication and counterfeit detection capabilities.

MAGNER[®]

75 Series

Currency Counting Machines

MAGNER® 75 Series

The 75 Series Currency Counters offer performance and productivity over a wide range of applications. Choose from a basic model with variable batching or a more advanced model with dual head, dual threshold magnetic counterfeit detection or ultraviolet detection, or both in combination should your application require it!

The V models are capable of extending the dollar value of currency denominations and tracking totals at the denomination, batch, and grand levels. Equipped with an optional printer, the 75V provides a detailed audit trail for improved control of cash counting and balancing operations.

MAGNER® Currency Counters have evolved from years of experience and are supported through our network of Authorized Distributors and our direct Technical Support Team (TST).

75 Series Model Range

(Standard 75 shown below)

M - Dual-head, Dual Threshold Magnetic Counterfeit Detection

U - Ultraviolet Counterfeit Detection

UM - Combined Ultraviolet and Magnetic Counterfeit Detection

V - Value Extension (keyboard shown below)

MV - Magnetic Counterfeit Detection and Value Extension

75V Keyboard

Specifications

Counting Speeds:

600, 1200 and 1500 notes per minute (selectable)

Display Type: LCD

3 digit batch display
4 digit piece count display
(V-Type Models Display: LED as above plus 9 digit value total display)

Document Size Limits:

1.97 x 3.54" to 3.94 x 7.28"
50 x 90 mm to 100 x 185 mm

Hopper Capacity:

500 circulated notes

Stacker Capacity: 150 notes

Batching: Variable 1 to 999

(also preset batches of 5, 10, 20, 25, 50, 100 notes and 'off' on V-type models)

Error Detection:

Double, chain, half-note, jam (standard)
Counterfeit suspect (optional)

Counterfeit Detection (optional):

Dual-head, dual threshold magnetic detection
Ultraviolet detection

Document Feed Mechanism:

Friction, intermittent roller type

Dimensions:

10.04" (H) x 11.02" (W) x 9.06" (D)
255 mm (H) x 280 mm (W) x 230 mm (D)

Net Weight:

15.50 lbs. (18.19 lbs. boxed)
7.03 kg. (8.25 kg. boxed)

Power Source:

120V 60Hz/230V 50Hz (switch selectable)

Power Consumption: 70W (avg.)

Temperature Limits:

Operating:
+32° F to +104° F (0° C to +40° C)
Storage:
-22° F to +185° F (-30° C to +85° C)

Density Setting:

Adjustable, 4 levels

Connection:

RJ45-type for external display
RJ45-type for RS232 interface

Other Options:

- External Display
- Vault management system interface software
- 40 column dot matrix printer (V-type models only)
