

# **BATCH / P.O.D. ENCODER**

To achieve the benefits of dollar amount pre-encoding, processing deadlines must be met with minimal impact to your operator or operation. The MICR V Encoder combines speed and ease of use with a small footprint to achieve these goals. Pre-encoding the dollar amount allows you to maximize check processing savings.

In a single pass, the MICR V encodes, lists, updates totals, and optionally endorses each check. The optional endorser meets Regulation CC requirements for "Bank of First Deposit."

## **MICR V ENCODER M-570**

Batch and Proof of Deposit software configurations help further streamline the MICR V's operation. Your Maverick Representative can program each application "on-site" to accommodate custom requirements.

The MICR V Encoder provides an upgrade path to enable you to combine encoding, endorsing and imaging documents. The M-570 can be upgraded to the M-570h Hybrid System, allowing you to encode and capture digital images in a single pass.

## Fast

The MICR V dollar amount encodes at a rate of 3,400 documents per hour.

## Quiet

The MICR V uses unique technology to minimize sound generated by the encoding process.

## Integrated Programmable Ink Jet Endorser

Accommodating a variety of formats, up to 20 programmable messages can be stored and accessed through the keyboard.

## Drop-In Ribbon Cartridge and "Maintenance Free" Hammer

Replacing the MICR V Ribbon Cartridge is simple and fast. A unique "maintenance-free" metal hammer eliminates the need to replace the MICR print hammer with each new ribbon. This new metal hammer has an average life of 65 million print characters (lasts for approximately 650 or more MICR ribbons).

## Software Options:

- Multiple Exception Item Fields
- Repeat Encode
- Account Number CDV/CDG
- Batch Recall
- Register / Teller Totals
- Clean Batch Listings
- Adding Machine Mode

## Hardware Options:

- Integrated, Programmable Endorser
- Designed as a hand-feed encoder, the MICR V supports an optional Autofeed Module which automatically feeds documents into the encoder
- Up to (3) configurable communication ports
- Detached Keyboard

## Upgrade Path:

- M-570 may be upgraded to M-570h Hybrid configuration with Imager Module for image capture of documents while encoding.

## SPECIFICATIONS

<b>Dimensions:</b>	Length: 18.0 inches (45.72 cm) Width: 12 inches (30.48 cm) Height: 6.0 inches (15.24 cm)
<b>Weight:</b>	11.25 pounds (5.1 kg)
<b>Keyboard:</b>	39 keys with 45 programmable function keys
<b>Display:</b>	20 character, 2-line, alphanumeric, dot matrix, backlit LCD
<b>Printer:</b>	24 column, dot matrix
<b>Endorser:</b>	Optional Ink Jet programmable Endorser
<b>Standard Interface Port:</b>	RS232C
<b>Interface Port Options:</b>	RS232C, RS422, RS485, TTL, 20ma Current Loop
<b>MICR Ribbon:</b>	Cartridge with average yield of 100,000+ characters
<b>Print Hammer:</b>	Average yield of 65 million impressions
<b>Font:</b>	E13B
<b>Power:</b>	120/240 VAC (autoswitchable) 50/60 Hz

## Nationwide Sales and Customer Support

The full line of Maverick MICR Encoders, Check Scanners and Application Software is sold and serviced nationwide by a highly trained and professional network of Maverick Distributors. For more information about the Maverick MICR V Encoder-Endorser or the Maverick MICR V Hybrid Encoder-Endorser/Imager, please contact your local authorized Maverick Distributor or the Maverick corporate office.
