

The Panini My Vision X™ is a high performance check processing solution developed specifically for distributed check capture. Characterized by ease of use, reliability, and scalability, the My Vision X is the market share leader and has been widely accepted by financial institutions as the standard for distributed check capture applications.

Benefits

The Panini My Vision X family of scalable check scanners is a best-in-class solution for distributed capture. Based on our core competencies of system scalability, superior image quality, MICR read accuracy, flawless

document handling, and professional services, Panini's distributed capture solution helps customers lower operational costs, protect investments, optimize return on investment (ROI), and enhance the customer experience.

- System Scalability
- Superior Image Quality
- MICR Read Accuracy
- Flawless Document Handling
- Professional Services

“The Panini My Vision X was far superior to any other product.”

*Debra Sciano
Senior Product Manager,
Key Bank.*

Panini has leveraged the My Vision X™ architecture to create a superior portfolio of distributed capture check scanners. This scalable product line addresses the complete range of distributed capture applications with one product family, providing investment protection, operational efficiency, and lower cost of deployment.

A My Vision X device can be **quickly and easily upgraded** via a software upgrade through the network from a single document device to 30 documents per minute, or DPM, to 60 and 90dpm to accommodate a broad range of transaction volume and processing time requirements.

Additional product scalability is offered in key areas such as **printing upgrades** to provide full receipt printing, **document feeding capacity upgrades** from a single document up to 100 documents in the autofeeder, and an **upgrade to color image**. Featuring a modern, ergonomic design and quiet operation, the My Vision X is a compact, robust check scanner designed to read the check MICR line, capture a front and back image of the check, and print customized endorsement information.

The My Vision X is a proven solution strategically designed to support the complete range of distributed capture applications.

Standard Features of the My Vision X Include:

- Automatic Document Feeder
- Magnetic Reader – E13B / CMC7 featuring Panini MICR Plus™ technology
- Rear Inkjet Printer – Single line to 4 line
- Image Capture – Up to 200 dots per inch (dpi)
- Exit Pocket
- Interface – USB 2.0
- Software Tools - Panini API and Silver Bullet compatibility

Panini My Vision X™

About Panini

Panini offers check capture solutions that help customers fully realize the advantages and efficiencies available with the digital transformation of the paper check. Panini's scalable check capture solutions address the complete range of distributed check processing opportunities.
